

Robbie Robin Christmas decoration

You will need

A cereal box
Black card
Red card
Light brown card
Dark brown card
String or ribbon to hang up the decoration on your tree
Glitter
Glue

What to do

Cut out a circle from the cereal box (this is the robin's body, so any size you like), this is the base and you will stick the coloured card on top of this.

Cut out the same size circle from the light brown paper/card and glue on top of cereal box circle. This makes a very sturdy base. As you are gluing them together, place the two ends of the string or ribbon in between the card and the cereal box, at the length that you would like it to hang from your tree.

Cut out a wing shaped bit of card from the dark brown card.

Use the red card for a moon shaped robin red breast, a small triangle of black card for the beak, and a black circle for the eye.

You can decorate with glitter or leave Robbie Robin as he is.
