Barn owl

Like most other owls, barn owls hunt at dusk or at night.

They have very sharp ears which they can use to help them catch small animals like mice and voles in complete darkness.

Owls also have strong legs and sharp talons to catch their prey.

Barn owls don't hoot like tawny owls – their call is more of a shriek!

You will need:

- Light brown and dark brown coloured pencils/pens
- Scissors
- Shirring elastic about 50 cm long
- Sticky tape

What to do:

- Colour in your mask, following the colouring guide.
- Carefully cut out your mask. Follow the thick black line marked with scissors. Be extra careful when cutting out the eyes.
- Ask an adult to help you push out the holes marked, ready to thread the elastic.
- Thread the elastic through the holes from the back of the mask and stick it to the back with the sticky tape. If you want to make it stronger, tie knots in the ends before you stick them down.
