

Buzzard dart

What you need:

- Coloured pencils
- Scissors
- Two straws – one larger than the other
- Sticky tape
- Paper clip

RSPB Wildlife Explorers is the junior membership of the Royal Society for the Protection of Birds.

The Royal Society for the Protection of Birds (RSPB) is a registered charity: England and Wales no 207076, Scotland no SC037654. 350-0364-08-09

How to make your buzzard fly

- First, colour the bird, as suggested on the colouring guide.
- Cut around the outline of the bird and turn it over.
- Cover one end of the large straw with tape and stick it to the back where shown.
- Put the paper clip on the beak.
- Now put the small straw inside the large straw and blow.
- Your buzzard should fly through the air!

Buzzards guard their territory well and don't travel very far from their nest. The nest is built by both the male and female, usually in a tree, rocky crag or cliff.
