

Collared dove snapper

You will need:

- Scissors
- Glue
- Light grey, dark grey and pink colouring pencils
- Double-sided tape

What to do:

- Colour the head light grey, and the two curved shapes under the beak dark grey. Colour the inside of the mouth pink. Leave the ring around the eye white.
- Cut all around the outside of the collared dove snapper.
- Fold the snapper along the dotted lines with the coloured area facing outwards. Make sure you fold across the middle of the mouth too.
- Apply glue as marked. Match A and B glued sections under the head and beak, squeezing to stick in place.
- Inside the top and bottom halves of the beak where circles are marked, stick a little piece of double-sided tape. Put your fingers on the tape and start snapping!

Protection of Birds.

Collared dove
50 years ago, collared doves were very rare in the UK. Today they are very common, so you can see them in lots of places. Look out for collared doves in gardens and parks.
