

# Sparrowhawk dart

## What you need:

- Coloured pencils
- Scissors
- Two straws – one larger than the other
- Sticky tape
- Paper clip

**RSPB Wildlife Explorers** is the junior membership of the Royal Society for the Protection of Birds.

The Royal Society for the Protection of Birds (RSPB) is a registered charity: England and Wales no 207076, Scotland no SC037654. 350-0026-08-09

## How to make your sparrowhawk fly

- First, colour the bird, as suggested on the colouring guide.
- Cut around the outline of the bird and turn it over.
- Cover one end of the large straw with tape and stick it to the back where shown.
- Put the paper clip on the beak.
- Now put the small straw inside the large straw and blow; your sparrowhawk should fly through the air!

**Sparrowhawks** feed on small songbirds, such as finches. These smaller birds spot birds of prey very easily and call to the others to warn them of the danger. Sparrowhawks have to be very quick to catch their prey, and might only catch one bird for every ten times they try!
