You will need:
- scissors
- glue
- grey, brown and pink colouring
- pencils
- double-sided tape.

What to do:
1. Colour the beak, the eye circle and the patch on top of the head grey. Make the inside of the mouth pink. Colour the stripes around the eyes brown. Leave the dots behind the eyes and the cheek patches white.
2. Cut out the house sparrow snapper.
3. Fold the snapper along the dotted lines with the coloured area facing outwards. Make sure you fold across the middle of the mouth too.
4. Apply glue as marked. Match A and B glued sections under the head and beak, squeezing to stick in place.
5. Inside the top and bottom halves of the beak where circles are marked, stick a little piece of doublesided tape. Put your fingers on the tape and start snapping!
House sparrow
House sparrows sometimes pluck feathers from pigeons, which they use to keep their nest warm and soft.
