# Pied wagtail snapper

## You will need:

- Scissors
- Glue
- Grey and pink colouring pencils
- Double-sided tape.

## What to do:

- 1** Colour all of the small patches around the eyes and on the neck grey. Make the inside of the mouth pink.
- 2** Cut all around the outside of the pied wagtail snapper.
- 3** Fold the snapper along the dotted lines with the coloured area facing outwards. Make sure you fold across the middle of the mouth too.
- 4** Apply glue as marked. Match A and B glued sections under the head and beak, squeezing to stick in place.
- 5** Inside the top and bottom halves of the beak where circles are marked, stick a little piece of double-sided tape. Put your fingers on the tape and start snapping!

**Pied wagtail**  
Pied wagtails are small, black and white birds with long thin tails which they wag up and down. That is why they are called wagtails!

The RSPB is a registered charity in England & Wales 207076, in Scotland SC037654.
