

BUILD A BIRD

PERFECT PUFFIN!

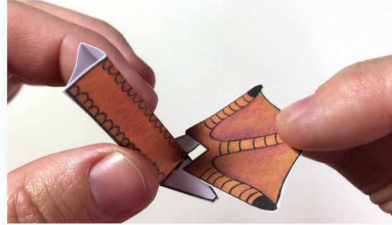

Collect all **six issues** of Wild Explorer this year and make this amazing model of a puffin!

Legs and feet

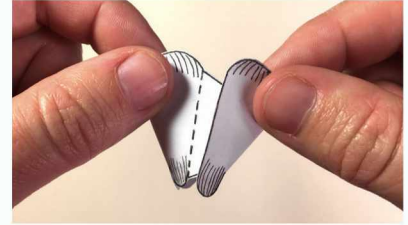

STEP-BY-STEP

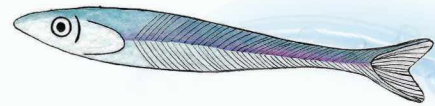

1 Fold the legs along the vertical lines until they make a triangle. Fold the small tabs back so that they are sticking out.

2 Put glue on top of the small tabs. Stick the feet on top of these tabs. Repeat for each leg.

3 Put glue on the tab on the leg feathers and loop around them to form a cone shape.

4 Slide the top of the legs into the narrow end of the leg feather and use a piece of tape to secure them on the inside. Repeat for the other leg.

5 Fold back the large semi-circle shapes at the top of the leg feathers and put glue on the inside. Position over one of the circles on the bottom of the body and glue down.

6 Repeat step five for the other leg.

You will need

- Scissors
- Glue or sticky tape
- Optional:
 - Paper or card backing
 - Ruler to help make straight folds.
