

BUILD A BIRD

PERFECT PUFFIN!

Collect all **six issues** of Wild Explorer this year and make this amazing model of a puffin!

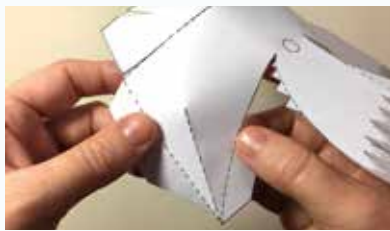

Body

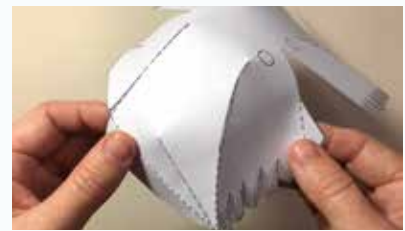

STEP-BY-STEP

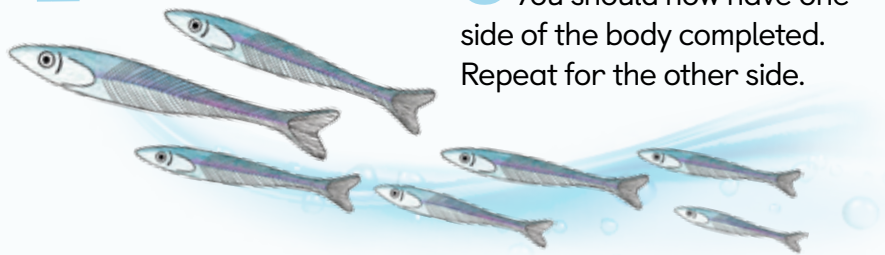

1 Cut out the body piece (opposite). Starting with the sides, cut the tabs and fold along the dotted lines. Put glue on the tabs and fold down the adjacent section. This will start to shape the body.

2 Repeat for the next tab.

3 Repeat for the next tab. You should now have one side of the body completed. Repeat for the other side.

4 Cut the solid lines around the tabs at the neck (the thick line is the neck), and glue together to shape.

5 Repeat for the tail end. Fold the tab and glue it to the opposite side.

6 Fold over the back, and secure to the tab on the side. This will create a flat back to the shape. You have now finished the body!

HOW THE BODY SHOULD LOOK!

You will need!

Scissors and glue or sticky tape
Optional: paper or card as backing, a ruler to help make straight folds.

"I spend most of my life at sea!"

BACK
Fold over and secure with tab

Tail tab

PART ONE
This project will be online soon. Check out our other models at rspb.org.uk/build-a-bird

SIDE
Cut and glue tabs

Pinch and glue to tabs

NECK
Fold tabs along the dotted lines

TAIL
Fold along dotted line and glue tab

Cut out this piece and back with paper or card. Don't cut off any tabs!

SIDE
Cut solid line, fold dotted line and glue

Fold tabs along the dotted lines

Tab for back
