

BUILD A BIRD

PEREGRINE FALCON

Collect all **six issues** of Wild Explorer this year and make this amazing model of a peregrine falcon!

PART FOUR

The full project will be available to download at rspb.org.uk soon.

LEFT MID WING

Step by step

Cut out the two midwings and back them with paper or card. Repeat these steps for the right and left wings.

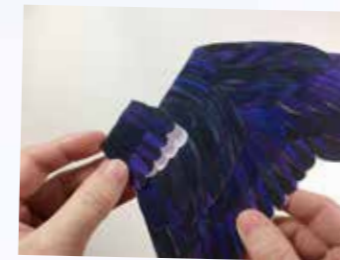

1 Fold the right midwing in half and stick it onto the base right wing from last issue.

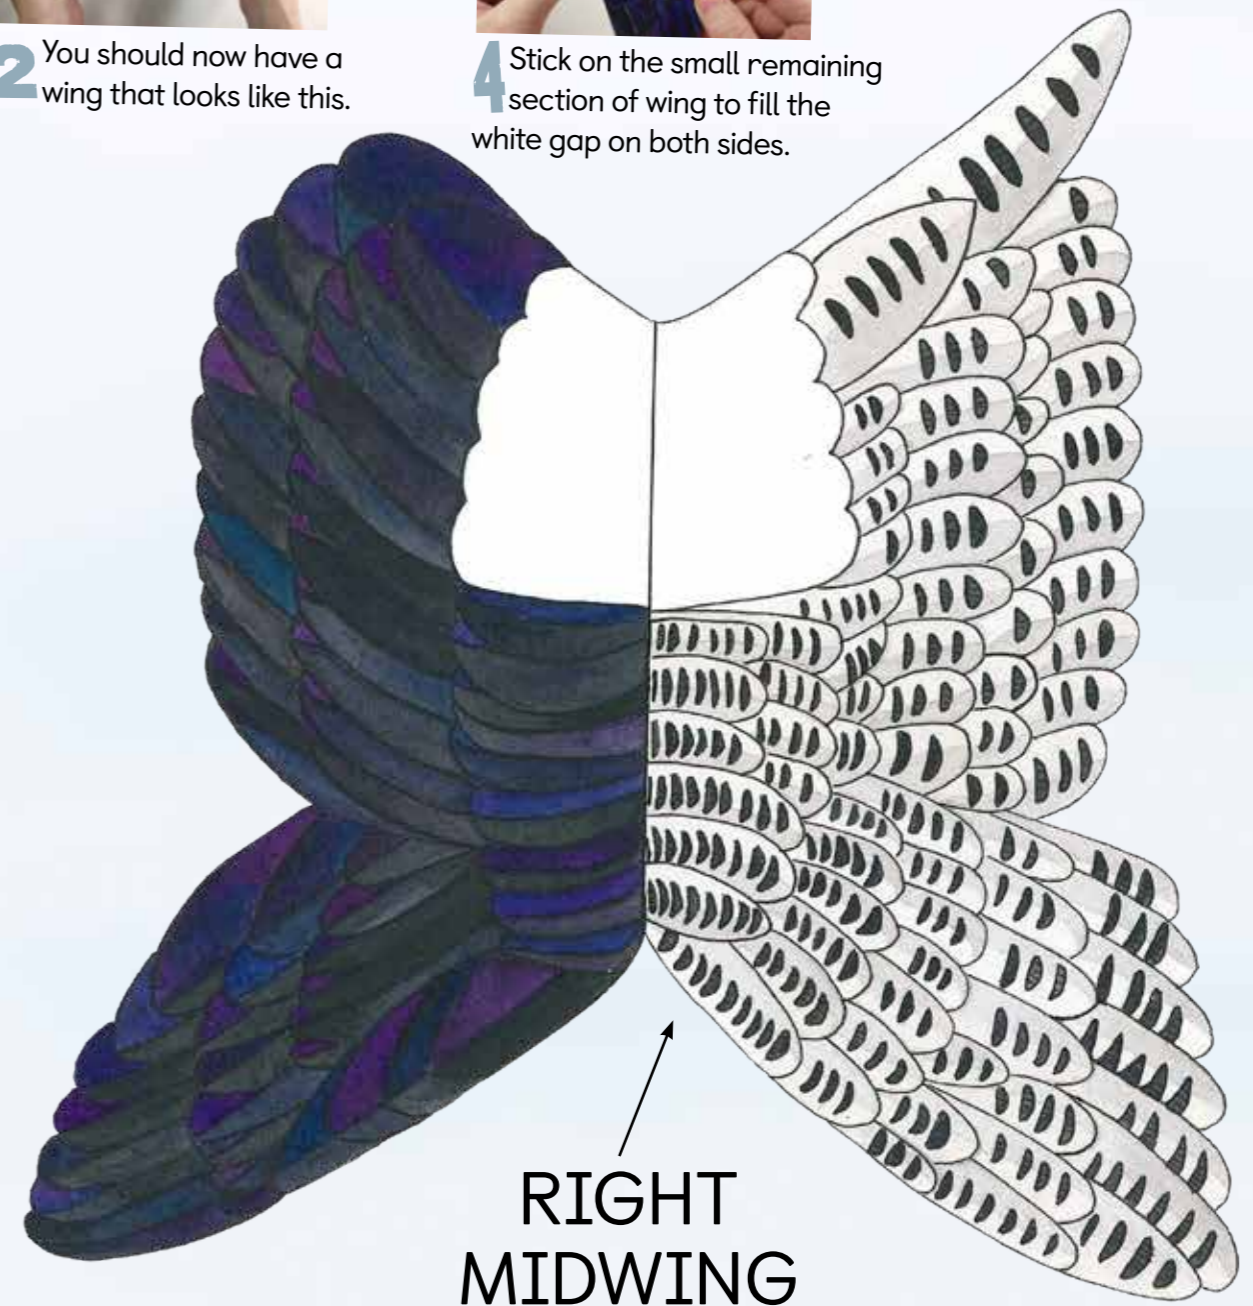

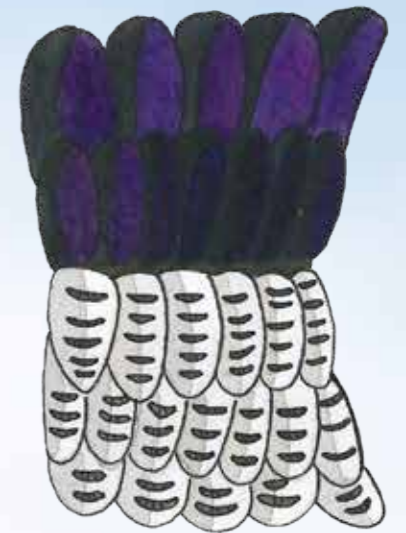

3 Wrap the midwing around and stick it down on the other side of the right wing base.

2 You should now have a wing that looks like this.

4 Stick on the small remaining section of wing to fill the white gap on both sides.

RIGHT MIDWING
