yn rhoi cartref i fyd natur

Coed, dail a hadau

... yn ystod yr hydref a'r gaeaf

Yn ystod y misoedd oer, mae creaduriaid gwyllt yn chwilio am gnau, aeron a hadau ar y coed. **Alli di ddod o hyd iddyn nhw hefyd?**

Aeron coch

Mae'r goeden eisiau i adar weld ei haeron, er mwyn iddyn nhw eu bwyta a'u gwasgaru yn eu pŵ. **Lliwiau aeron eraill rwyt ti wedi'u gweld**

Hadau hofrennydd

Mae gan yr hadau hyn **'adenydd'** bach a gall y gwynt eu cario yn bell i ffwrdd.

Sawl cam oddi wrth foncyff y goeden yw'r hedyn pellaf?

Cynaeafu cnau

Alli di ddod o hyd i rai wedi hanner eu bwyta?

Wedi lapio

Cer ati i ddod o hyd i gneuen neu hedyn mewn plisgyn. **A yw'n galed neu'n bigog?**

Mochyn coed

Cer â'r mochyn coed adref gyda thi. **A yw'n agor ar ôl ychydig o ddyddiau?**

Pa goeden yw hi?

Yn y gaeaf, does dim dail ar y coed. Ond, yn aml, mae modd dod o hyd i ddail ar y llawr a fydd yn dy helpu di i ganfod pa fath o goeden yw hi. **Gall rhai pobl adnabod coed dim ond drwy edrych ar eu blagur!**

Gweithgaredd

Gyrrwch luniau o'r hyn rydych chi wedi dod o hyd iddyn nhw.

Sialens Wyllt

Mae RSPB yn elusen gofrestredig yng Nghymru a Lloegr 207076, ac yn yr Alban SC037654, 327-0546-20-21. Aeron coch gan Mike Read, mes gan Chris O'Reilly, cneuen gastan gan Sue Kennedy, rhisgl coeden gan Michael Harvey a gwreiddiau coed gan Tony Hamblin (pob un yn rspb-images.com), hadau hofrennydd, mochyn coed, buwch goch gota, esgidiau glaw a phridd gan iStockphoto.com a chwyddwydr gan dreamstime.com

giving nature a home

Trees, leaves and seeds ... in autumn and winter

Wild creatures search the trees in the cold months looking for nuts, berries and seeds. **Can you find them too?**

Red berries

The tree wants birds to see its berries, so they will eat them and spread the seeds in their poo.

Colours of other berries you've found

Helicopter seeds

These seeds have little **'wings'** and the wind can carry them a long way.

How many paces from the tree trunk is the farthest away seed?

Nut harvest

Can you find any that have been half-eaten?

All wrapped up

Find a nut or seed in a case. **Is it hard or prickly?**

Conifer cone

Take a conifer cone home. **Does it open up after a few days?**

What tree is it?

In the winter, the trees are bare. But you can often find leaves underneath that will help you work out what kind of tree it is. **Some people can identify trees just from their buds!**

Action

Send us pictures of what you've found.

Wild activities!
