

Magic moths

A staggering **2,500 species of moths** live in the UK. **Can you find any with shapes or patterns like these?**

1 Frilly wings

2 Spots

3 Bands or stripes

4 Mini-tents (wings folded over their backs)

5 Triangular-shaped

6 Feathery feelers

7 Sails (wings raised up)

8 Micro-moths (smaller than 2cm long)

9 Bright colours

This one flies in the daytime

Action

Write and tell us about the moths you have discovered.

Where to look: Sheltered places such as walls, fences and under vegetation. Find moths asleep there during the day.

Don't wake them up!
