Biscuit birds

Share your bird song takeover bakes using [#LetNatureSing](#) and don't let nature's music stop with these biscuit birds.

These simple bird biscuits are perfect if you're hosting your own bird song takeover. Enjoy with tea or coffee, and the fluting sounds of Birdsong Radio. From sesame seed sparrows to desiccated coconut chaffinches, feel free to use whatever edible feathers and finishes you desire.

Ingredients

150g butter, softened
150g caster sugar
1 egg
1 tbsp vanilla extract
300g plain flour

To decorate

- Icing sugar
- Various colours of food colouring
- Optional: assortment of sesame seeds, linseeds, desiccated coconut and broken up shredded wheat.

Step-by-step guide

- 1** Beat the butter and sugar together for 3–5 minutes, or until smooth and creamy.
- 2** Break the egg into a mug or jug, add the vanilla extract and beat with a fork.
- 3** Gradually add the egg to the creamed mixture, beating well after each addition. Sift the flour into the mixture in two or three batches to make a soft dough.

- 4 Halve the dough and pat each piece into a rough disc. Wrap and refrigerate for several hours.
- 5 Remove the dough from the fridge 15–30 minutes before rolling it, so it can soften slightly. Preheat the oven to 180°C/160°C fan/gas 4.
- 6 Roll out the dough between sheets of baking parchment to the thickness of a £1 coin. If the dough seems very sticky, dust it and the parchment lightly with a little flour. Peel off the top parchment sheet, then cut out the dough into bird shapes. Use a cocktail stick to create the indent of an eye.
- 7 Bake the biscuits for 10–12 minutes until they are lightly golden brown around the edges. Leave them to firm up for a few minutes on the baking tray, then transfer to a wire rack to cool.
- 8 Decorate your birds! You can use patterns using icing as shown, or use seeds and broken up shredded wheat pieces to create textures or a nest.

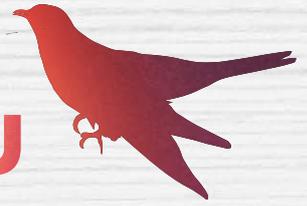

Stream bird song, download the Birdsong Radio app, involve a business, or even host your own takeover!
