

# CAN YOU HEAR BIRD SONG?

Yes you can!  
It's the bird song  
takeover

We're bringing bird song to five million people, from workplaces to living rooms. Nature is in crisis, so we're creating a chirruping, chirping message to tell people in power we don't want it to disappear.

**Want to get involved? Stream bird song, download the Birdsong Radio app, and spread the word.**
